

# EcoLamPlus<sup>R</sup>

Recyclable mono-PE laminate with barrier to oxygen and water vapor

▪ **General properties**

- Monomaterial
- Recyclable in the PE film stream (available in most EU countries)
- Ideal for replacement of non-recyclable multi-polymer structures
- High barrier to oxygen and water vapor
- Available Transparent / White and Gloss / Matt
- Printable by Rotogravure and Flexo
- One side heat sealable. Lock and peel seal
- Easy tear possible
- Enhanced thermal resistance of outer surface
- Effective barrier to MOSH/MOAH

▪ **Structure**

Barrier oPE / PE

▪ **Certificates**

Recyclable

Recyclable

▪ **Applications**

- VFFS, HFFS
- Hot filling
- Modified atmosphere
- Pasteurizable

▪ **Products**

- Snacks
- Cereals
- Confectionary
- Beverages
- Hygiene and Home Care Products
